Dear Sir:

This paper constitutes Applicants' Statement of the Substance of the Interview under MPEP § 713.04 with respect to the personal interview conducted on March 9, 2010.

Applicants' representatives, Examiner Dhairyा A. Patel, and Supervisory Patent Examiner Hassan Phillips discussed the rejections of the pending claims with respect to the cited documents, as well as the claim amendments presented in the Amendment filed on February 4, 2010. In particular, Applicants' representatives discussed the "modification of terminal capability information of the control signaling message related to the separate media components" feature in relation to U.S. Patent No. 6,728,236 to Potter et al. ("Potter"). It was agreed that Potter did not teach or suggest this feature, and Examiner Patel indicated that he would update the search and respond accordingly.

Respectfully submitted,  
BANNER & WITCOFF, LTD.
